

```
rem IMPORTANT - this MUST be run in a Windows XP virtual machine
rem append the ZCC executables to your path (whereever you put them)
echo off
rem this version of aslink does NOT support the '-f' option to get linker
rem a command line limit of 132 characters so rather than link a lot of f
rem other files.
rem And file names must be 8.3 or shorter
set path=%path%;f:\zcc\exe
echo on

asz80 -l powerup.asm
asz80 -l mainloop.asm
asz80 -l disputil.asm
asz80 -l io.asm
asz80 -l monitor.asm
asz80 -l cmdline.asm
aslink -i -m -x -b CODE=0x0068 -b RAM=0x8000 powerup.rel mainloop.rel disp
del bootrom.hex
ren a.ihx bootrom.hex
del bootrom.map
ren a.map bootrom.map
